Transcript of Undergraduate Studies

This document is an official transcript which gives details of an individual student's performance for the duration of his or her programme of study at The University of Reading.

Undergraduate degree programmes are normally three or four years in duration and are normally divided into three or four parts. Full-time undergraduate students are normally required to take in each year of study 120 credits, corresponding to 1200 notional hours of study. Each module has a designated credit weight and level. The levels of modules are as follows:

- C Certificate Level
- I Intermediate Level
- H Honours Level
- M Masters Level

Students are required to achieve an overall Pass in Part 1 and Part 2 before proceeding to the next part of their programme. If a student has failed at the first attempt to qualify to proceed to the next part of their programme, he or she is normally permitted one further attempt at the modules in which they have failed to achieve the qualifying mark. Exceptionally, a student may be permitted a third attempt.

Part 1 does not contribute to the classification of the degree. Part 2, Part 3, and (where appropriate) Part 4 contribute in variable proportions to the classification of the degree, depending on the programme, in accordance with the provisions of the University-wide framework for classification and progression for First Degrees (post-2002 structure) and the programme specification.

A student who has failed at the first attempt in the Final Examination for the degree is normally permitted one further attempt, but will not then normally be able to obtain better than a Pass in their degree.

A candidate prevented from completing their final Examination due to illness may be awarded an Aegrotat Degree

The grades indicating a student's achievement in a module are:

- A = 70-100, equivalent to First Class Honours level
- B = 60-69, equivalent to Second Class Honours, Division I, level
- C = 50-59, equivalent to Second Class Honours Division 2, level
- D = 40-49, equivalent to Third Class Honours level
- E = 35-39, equivalent to Below Honours standard
- F = 30-34, Fail
- G = 0-29, Fail
- DN = Deemed not to have sat due to exceptional circumstances
- NC = Not completed (for good cause)
- U = Unassessed Unit

In the case of a student who has failed and been reassessed in a module, the transcript shows the total number or attempts taken and the highest mark/grade achieved in those attempts. It should be noted that marks for modules at Part 2, which have been resat are normally capped, for classification purposes at the threshold qualifying mark.

In accordance with the University's policy in relation to disability, appropriate provision is made for the examination and assessment of students with disabilities.

This document should not be regarded as proof of a qualification unless seen in conjunction with the original degree certificate.
